SKILLS

Languages: Python, Java, SQL, Swift

Frameworks: Spring Boot, FastAPI, Angular, React, SwiftUI

AI & LLMs: LangGraph, Azure OpenAI, Azure AI Search

Cloud & Tools: AWS, Azure, Docker, Git, REST APIs

EXPERIENCE

Full Stack Software Engineer, SkillStorm | Ernst & Young (EY, Contract) – Remote Oct 2025 – Present

- Developed full-stack enterprise applications using Spring Boot, Flask, Angular, and React, building REST APIs and end-to-end application workflows.
- Implemented JWT authentication, OAuth2, role-based access control, and Stripe payments, enabling secure user access and transaction processing.
- Deployed apps on AWS and Azure, provisioning resources and implementing CI/CD pipelines for automated delivery.
- Designed and implemented a multi-agent AI assistant using FastAPI and LangGraph orchestration, integrating Azure OpenAI and 8 MCP tools for retrieval, research, memory, and controlled actions.
- Collaborated within Agile teams through sprint planning, code reviews, testing, and iterative defect resolution.

IT Support Specialist, Empyrean Group – San Jose, CA Mar 2021 – Oct 2025

- Supported 100+ users by diagnosing and resolving hardware and software issues through phone and email support.
- Built software prototypes for mobile image capture, database integration, and WordPress applications.

PROJECTS

Financial Simulation & Analytics Platform

- Built portfolio analytics for a stock trading simulation platform, tracking value, gains/losses, and holdings performance.
- Designed 5+ Spring Boot APIs and MySQL models supporting portfolio analytics and 75+ years of historical stock data.
- Implemented simulation rules governing portfolio state, transaction processing, and position updates throughout active trading sessions.
- Produced interactive dashboards and data visualizations using Angular and TypeScript to analyze performance trends.

Agentic RCRA Waste Determination Copilot

- Built multimodal RAG ingestion pipelines across 10+ file formats, processing 6 regulatory documents totaling 91 pages into normalized, citation-grounded context for compliance analysis.
- Architected 11-table PostgreSQL/pgvector persistence for compliance dossiers, audit trails, review queues, and vector similarity search, enabling traceable AI-assisted determinations.
- Implemented guardrails and human-review workflows with citation validation, readiness checks, and escalation logic to prevent unsupported compliance determinations.
- Deployed a containerized Azure AI platform across 8+ cloud resources using Docker and GitHub Actions.

Daily Leaf (Apple App Store)

- Developed and published a native iOS application using SwiftUI, delivering daily motivational content to users.
- Architected the application using MVVM and CloudKit for cloud-backed data synchronization and persistence.

CERTIFICATIONS

AWS Certified Solutions Architect – Associate (SAA-C03) Issued 2026

Microsoft Certified: Azure AI Apps and Agents Developer Associate (AI-103) Issued 2026

Anthropic Claude Certified Developer – Foundations (CCDV-F) Issued 2026

EDUCATION

California State University, Monterey Bay – B.S. Computer Science May 2022
